OBJECTIVE

Motivated fourth-year Bachelor of Science in Information Technology student at Philippine Christian University seeking an IT on-the-job training (OJT) opportunity. Eager to apply my technical knowledge, gain hands-on industry experience, and further develop my technical and professional skills while contributing through dedication, teamwork, and a strong willingness to learn.

EDUCATION

Philippine Christian University Bachelor of Science in Information Technology	2023 – Present
Dean's Lister (2023 – 2026)	
Paco Catholic School Accountancy, Business, and Management	2021 – 2023
Graduated With Honors (2022)	

SKILLS

- Programming Languages:** Java, C#, C++, HTML, CSS, JavaScript, SQL
- Software & Tools:** Visual Studio, Microsoft Office, Canva, Adobe Photoshop
- Core Competencies:** Web Development, UI/UX Design
- Soft Skills:** Critical Thinking, Collaboration, Strong Work Ethic, Adaptability, Time Management

ACADEMIC PROJECTS

Cemetery Lot Information System (Group Project)	December 2025
<i>Technologies & Tools:</i> C#, .NET Framework, .NET Core, Microsoft SQL Server	
- Collaborated as a Software Developer to develop and integrate core system features. - Led the UI/UX design, creating the application's visual concept and user flow.	
Department Store Customer Service System (Group Project)	May 2025
<i>Technologies & Tools:</i> Java, Object-Oriented Programming (OOP)	
- Developed a Java-based customer service management system as part of a development team. - Led the system architecture and workflow design. - Developed customer registration, barcode lookup, service request, and receipt modules using object-oriented programming principles.	
Portfolio Website https://anghelabsit3b2025portfolio.netlify.app	November 2025
<i>Technologies & Tools:</i> HTML, CSS, JavaScript	
- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript. - Showcased academic projects and UI/UX designs through an interactive portfolio. - Deployed the website using Netlify.	
Software System Design and Architecture Project	April 2026
<i>Tools & Technologies:</i> Figma, Canva, UML, Database Design, Wireframing	
- Analyzed system requirements and designed a proposed information system. - Designed database schemas, system architecture, and UI wireframes. - Created UML diagrams and process flowcharts to model system functionality. - Designed test cases and evaluated the system for scalability, security, and performance.
